21FLGFWF Florida Fish and Wildlife Conservation Commission

Acronym	External Reference Scheme Name	Description
FWCSTNUM	Fish and Wildlife Conservation Commission Station Number	These are the station numbers assigned by the individual projects. Some stations may have multiple station numbers from different time frames or collection sequences.
LGSTORET	FWC Legacy STORET primary station ID	This is the primary station ID from the legacy storet database. These are provided when available for cross reference to that database. Stations listed as -DUP are instances where the FWC sampled the same site with different station numbers.
WATRCHEM	Fish and Wildlife Cons. Comm. Water Chemistry Database	The four digit (including leading zeros) ID number was generated sequentially by the WATRCHEM database program. This ID was used internally within the database as a linking field. The WATRCHEM numbering scheme is included for internal FWC reference.

TDECDOE Tennessee Department of Environment and Conservation		
Acronym	External Reference Scheme Name	Description
1	Downstream of Norris Dam	Site 1 - Downstream of Norris Dam: Samples are taken from the Clinch River from the bank at the first recreation access point downstream of Norris Dam. This site is upstream of any possible DOE impacts and is a reference site in this respect.
10	McCoy Branch	Site 10 - McCoy Branch: Samples are taken from the creek approximately 150-200 feet upstream of the confluence with Melton Hill Lake.
11	Western Branch	Site 11 - Western Branch: Samples are taken from the creek at a point about 150 yards from the confluence with Melton Hill Lake.
12	East Fork Walker Branch	Site 12 - East Fork of Walker Branch: Samples are taken from the creek in a length of the stream about 150 feet in distance, beginning about 100 feet from the confluence with Melton Hill Lake. The location depends upon the water level of the Clinch River
13	Bearden Creek	Site 13 - Bearden Creek: Samples are taken from the creek at point about 150 feet from the confluence with Melton Hill Lake.
14	Unnamed Stream	Site 14 - Unnamed Stream: Samples are taken from the creek at point about 150 feet from the confluence with Melton Hill Lake.
15	Unnamed Stream	Site 15 - Unnamed Stream: Samples are taken from the creek at point about 150 feet from the confluence with Melton Hill Lake.
16	Unnamed Stream	Site 16 - Unnamed Stream: Samples are taken from the creek at a point about 120 feet from the confluence with the Clinch River.
17	Unnamed Stream	Site 17 - Unnamed Stream: Samples are taken from the creek at a point about 2000 feet from the confluence with the Clinch River.
18	Raccoon Creek	Site 18 - Raccoon Creek: Samples are taken from the creek at point about 1000 feet from the confluence with the Clinch River.
19	Ish Creek	Site 19 - Ish Creek: Samples are taken from the creek at a point about 1000 feet from the confluence with the Clinch River.

External Station ID Schemes

November 08, 2004 09:36:55

TDECDOE Tennessee Department of Environment and Conservation		
Acronym	External Reference Scheme Name	Description
2	Anderson County Water Treatment Plant	Samples are taken from the Clinch River from a boat in an area approximately 20 to 40 feet from the west bank of the river, just offshore from the water treatment plant. This site is upstream of any possible DOE impacts and is a reference site.
20	Grassy Creek	Site 20 - Grassy Creek: Samples are taken from the stream at a point about one half mile from the confluence with the Clinch River.
21	Unnamed Stream	Site 21 - Unnamed Stream: Samples are taken from the creek at a point about 40 feet from the confluence with the Grassy Creek.
22	ETTP Water Treatment Facility	Site 22 - Unnamed Stream: Samples are taken from the stream at the opening of the culvert that brings water from the K-1515C lagoon, approximately 100 feet from the confluence with the Clinch River.
23	Unnamed Stream behind Warehouse Road	Site 23 - Unnamed Stream: This stream is located behind Warehouse Road in Oak Ridge. Samples are taken a short distance from the Clinch River embayment at Clinch River Mile 51.1. This site is upstream of any possible DOE impacts.
24	White Creek	Site 24 - White Creek: This stream is located in the Chuck Swann Wildlife Management Area in Union County. Samples are taken about 1/3 mile downstream from an old TVA water monitoring facility about one mile upstream of Norris Lake.
25	Clear Creek	Site 25 - Clear Creek: This stream is located near Norris Dam near Clinch River Mile 77. Samples are taken near a water storage facility about one mile upstream of the river. This is a background site.
3	Downstream of Williams Bend	Site 3 - Melton Hill Park: Samples are taken by the same methods as used at Site 2 in an area approximately 20 to 40 feet from the west bank of the Clinch River approximately one half mile downstream of the Knoxville Utility Board's pumping station.
4	Grubb Islands	Site 4 - Grubb Islands: Samples are taken by the same methods as used at Site 2 in an area approximately 20 to 40 feet from the west bank of the Clinch River approximately 100 to 200 feet downstream of the larger Grubb Island.
5	Brashear Island	Site 5 - Brashear Island: Samples are taken by the same methods as used at Site 2 in an area approximately 20 to 40 feet south of the last sandbar (going downstream) of the Clinch River approximately 400 to 500 feet upstream of Brashear Island.
6	Bull Run Steam Plant	Site 6 - Bull Run Steam Plant: Samples are taken by the same methods as used at Site 2 in an
